

Genevieve Germain

Associate Consultant, E-Learning & Program Administration

Genevieve Germain has a diverse background from Management Consulting to Gaming. She has held several roles from Office Manager to Executive Assistant, working closely with Presidents and Executive Leaders. In her positions, she has played a key role in ensuring effective client services, timely delivery of projects, and the management of crisis impacting the successful implementation of projects. She has been a valuable team player on creative teams involving program designers, programmers and creative artists as well as professional service teams involving psychologists, business coaches, as well as lawyers.

She has spent a considerable number of years perfecting her language skills in both English and in French, and has proactively taken full ownership in remodeling of workspace environments to increase employee well-being, organizing psychometric testing procedures to minimize stress and anxiety among candidates, as well as tailoring program timelines and strategic plans to meet corporate expectations. She is known for her initiative, her attention to detail,

her ability to quickly get a sense of the clients' needs and to multitask efficiently. As the Associate Consultant, E-Learning & Program Administration, Genevieve creates the storyboards for our E-learning programs, manages business development initiatives, as well as lends her voice to bring our E-learning characters alive. She has worked for companies such as Frima Studio, McCarthy Tétrault, and Knightsbridge before joining Papillon MDC Inc.

Genevieve Germain is based in Quebec City, Quebec, Canada.
